CATARRH CANNOT BE CURED local applications, as they canno the seat of the disease. Catarr reach the seat of the disease. Catarrh is a local disease, greatly influenced by constitutional conditions, and in order to cure it you must take an insternal remedy. Hall's Catarrh Medicine is taken internally and acts through the blood on the mucous surfaces of the sysicm. Hall's Catarrh Medicine was prescribed by one of the best physicians in this country for years. It is composed of some of the best tonics known, combined with some of the best bjood purifiers. The perfect combination of the ingredients in Hall's Catarrh Medicine is what produces such wonderful results in catarrhal conditions. Send for testimonials, free.

EVENTS OF FIFTY YEARS AGO

THE WEATHER:

Conditions.

Pressure is still low in the Atlantic states, with the principal center of depression of the Maine coast and a moderate accordary one over the south Atlantic states. There were generally light rains in the Atlantic states. It is cooler in the Atlantic states, in the Atlantic states and temperatures generally below the seasonal average throughout the country except in the northwest, where they have risen. The weather in the part was practically completed and the city completed and the city completed and the city completed and the city was flooded with clergy Universalist held their convention here of a grand improvement. The State and laymen of this denomination. The discussion of the school question was resumed and upon action of a meeting all that had been voted was returned and temperatures generally below the seasonal average throughout the country except in the northwest, where they have risen. The weather in the part which has along the northwest, where they have risen. The weather in the seasonal average throughout the country except in the northwest, where they have risen. The weather in the seasonal average throughout the country except in the northwest, where they have risen. The weather in the seasonal average throughout the country except in the northwest, where they have risen. The weather in the seasonal average throughout the country except in the northwest, where they have risen. The weather in the seasonal average throughout the country except in the northwest, where they have risen. The weather in the country except in the northwest, where they have risen. The weather in the country except in the northwest, where they have risen. The weather in the country except in the northwest with the principal center of the transmit of the city which has caused a little ner-work the city which has caused a

one snowy night last winter has been rabust and will open for the fall term at previous meetings and now the matter of building stands in the same possible of the more clegant than the one that was destroyed.

Many people enjoyed the moonlight excursion on the Sunbeam down the Thames and out onto the Sound on Saturday evening. The Third Regiment band accompanied the party. When the boat was docking on the return trip one of the passengers fell overboard but was rescued none the worse for his ducking.

September 1, 1868—Work is being voted to recind several votes taken at previous meetings and now the matter of building stands in the same position as several months ago.

September 4, 1882—The crowds that are watching the divers at work on the new wharf for the Norwich and Worcester railroad are increasing daity.

Two cars of a train on the New London Nortisem railroad broke away last evening and crashed into two others standing on the track. The coaches were filled but no one was injured. September 1, 1868-Work is being jurad.

pushed vigorously at the city reservoir, the dam rapidly rising and assuming shape and propertion. One of the gang of men is engaged in finishing the work of removal of the vegence of the center of the city called out the Neptune Company who subdued the blaze in short order without damage station in the bottom of the ravine. The whole enterprise is approaching completion and before many weeks we shall be able to see whether we are to have water or not.

September 2, 1868—A. W. Prentice and she was taken on board again, and Co, have completed the large brick. This is the third accident at that standalling to their stars which they will line within the last two days.
